PERFORMANCE

SIZE 4 ONLY

\$70.00

HOW TO INFLATE A BALL

STEP 01

Prior to inflation, gently expand the ball by pulling it outward from the center using both hands.

STEP 02

After unfolding, make sure the bladder is positioned freely at the center of the ball.

STEP 03

Before inserting the needle into the ball, lubricate the needle with a water-based lubricant.

STEP 04

Gently insert the needle slowly, being cautious not to apply pressure on the ball to avoid damaging the bladder.

Warning!

This step is a common cause of damaging bladders.

STEP 05

Inflate the ball to the recommended pressure, then verify the pressure using a pressure gauge.
